Professional Summary

A seasoned Project Professional & Scrum master adept at leading co-located & remote teams on daunting technology projects to deliver laudable results. I have leveraged my knowledge of **agile & waterfall methodologies garnered in 3 years** to deliver technology solutions that achieved key business objectives for many **startups across Finance, Manufacturing, Edtech and Blockchain** sectors.

Employment History

Product Manager

Venturage Technologies (Owners of FlinCap), Nigeria

Jan. 2023 – May 2023 (5 months)

- Managed Venturage's **Scrum team** which delivers **P2P Solutions for Businesses in Nigeria, Ghana, DRC, United Kingdom and United States.**
- Introduced time management measures that fostered increased engagement, documentation and attendance of concerned stakeholders in daily standup.
- Performed other key functions of a **Product manager and was promoted to a lead product manager in less than two months into launching an MVP whilst generating revenue.**
- Achieved delivery of a **key product feature on a P2P service in 50% less cycle time than similar enhancements previously implemented.**

Program Manager Associate

AYA Holdings Inc., (Blockchain/EduTech Company), Delaware, USA

Sept. 2022 – April 2023 (8months)

- **Led and managed the cross functional teams through** the delivery of Edtech projects for a startup piloting a web3 fellowship across **Africa,** which became **instrumental in the organization's entry into Techstars.**
- **Led the project team through a daunting period of 6 months** by adopting agile practices which **helped improve the team's efficiency and reduce cycle time by 20%.**
- **Fostered application of agile values and principles** through continuous improvement, flip learning, customer collaboration, team motivation, iterative delivery.
- Improved development and delivery launch in one of program's project of a **cryptocurrency staking platform (StakePro) by 50% increase in lead time in less than one month, which became the best project at the closing ceremony.**

Assistant Project Manager

Parkwalk Properties, Lagos State, Nigeria.

Jan. 2022 – Sept. 2022 (9months)

- Achieved **40% increase in sprint velocity over a period of five months**
- Documenting project files and tracking of progress on site through day-to-day monitoring of daily activities on site and live feed documenting of intakes and flow of materials.
- Scheduling and attending of technical and other proposed site meetings.
- Taking minutes of meetings as well as creating RFI from other stakeholders; Main contractor, sub-contractors, architects involved in the project.

Product Marketing Agent

Bentinit-IT Solutions Ile-Ife,Osun State.

Aug. 2018 – Sept. 2020 (2years, 2months)

- Obtained **highest client's satisfaction rating on over 70% of projects managed**.
- Ensured business-to-business B2B communication line engagement and tracking of sales service delivery quarterly.
- Provided insights which helped organization achieve sales pitches to senior management of top manufacturing brands in the same ecosystem which fostered more collaborations and **revenue increase of 20% year on year**.
- Created funnels for a whole consumer group to contract terms with the company.
